IEEE YMCA Student Branch

IEEE YMCA SB is a recently established technical club in the university. This club continues the legacy of the IEEE DELHI SECTION which has the vision of creating a connected environment for the students of technical institutes.

Various Functions of the club are:-

- Organising Technical Workshops and Sessions for the students to increase their interest and give them hands on experience.
- Holding competitions for the Students related to technical projects. The club is known for its informative workshops both club exclusive and open to all.
- We teach the students various techniques and skills through means of practical procedures and involvement.
- We prepare the students for placements and internships exposing them to the job environment within the club.
- We make projects related to electronics and electrical which help the members to hone their making skills.
- We take the students to Educational as well Recreational trips to IIT's and NSIT's

ANNUAL REPORT IEEE YMCA SB

- We organize competitions within the club to provide hands on experience for future projects.

IEEE Events

S. No.	Title	Date
1.	Bigg Boss 1.0 TECH+FUN	March 24-26, 2017
2.	Twist Tambola	March 26, 2017
3.	Workshop on electronic circuitry	September 1, 2017
4.	Session on PCB designing	September 22, 2017
5.	Science quiz & Orientation	October 4, 2017
6.	Trip To Science Museum	November 1, 2017

Events description

1. BIGG BOSS(March 24-26,2017)

IEEE YMCA SB organised a technical cum fun event in CUlmyca'17. It was 3 day event all full of technical exposure. The event saw 120 registrations and around 90 participations. The event includes different tasks which are required complete in given time. There were 15 teams from which only 5 had qualified for day 2 and on Day 3 there was a final round for one member selected from each group. It was successful and the contestants enjoyed it well.

2. TWIST TAMBOLA(March 26,2016)

On DAY3 of fest 26th March' 2017, IEEE YMCA Student Branch organised Twist Tambola at 1.30 pm at room S-9. The students were to participate in a team of 2. There were 60 participants for the event. The twist in this game was a Power Point having various Aptitude based Logical question was shown to the students. The answer for every question was going to be whole number between 1 to 90. Each team was required to solve the question and strike off the answer if present on the Tambola ticket.

ANNUAL REPORT IEEE YMCA SB

3. Electronics Circuitry Workshop(Sept. 1,2017)

IEEE YMCA SB organized its workshop on Electronic Circuitry (The Basics of Electronics). The workshop was conducted on 1st Sept, 2017 and revolved around the basics of electronic circuit. The workshop was coordinated well by all the members of the club. The lecture was also prepared by the club students. The workshop was open for the first year students to introduce them to the world of electronics

4. Session on PCB designing(Sept. 22,2017)

PCB is a basic component of an electric circuit. To share & provide knowledge about PCB and its designing IEEE organised a session on PCB designing for students. The session was interesting as designing enchants most of the people. The session heads did their best to share everything that they know. The session ended well.

ANNUAL REPORT IEEE YMCA SB

5. Orientation and Quiz

IEEE organised a quiz on the day its club orientation. The quiz was based on basic questions from electric circuit and components. For each correct answer from audience side interesting goodies were given. The orientation and quiz was a good interacting session with the newbies of the first year.

6. Trip To Science Museum(November 1,2017)

After the club auditions IEEE organised a trip to '*Science Museum, Pragati Maidan(New Delhi)*' for the fresh members of club. The main motto of this trip is to develop ideas for the projects. Science museum is a good place to explore the science. We provided them refreshments. It was an eight hour trip.
